

## ERRATUM

**RE:** In [Extraction and Analysis of Methadone in Exhaled Breath Condensate Using a Validated LC-UV Method](#); Khoubnasabjafari *et al*, J Pharm Pharm Sci 18(2) 207-219, 2015, all methadone concentrations should read “ $\mu\text{g}/\text{mL}$ ” rather than “ $\mu\text{g}/\text{L}$ ”.

All methadone concentrations should be read as  $\mu\text{g}/\text{mL}$  rather than  $\mu\text{g}$ .
