

**Erratum to Brocks, D., Al Nebaihi, H., Parvin, S., & Hamza, A. (2022). Piecing together human adult comparative pharmacokinetic trials and rodent studies: What happens to drug clearance in obesity?** *Journal of Pharmacy & Pharmaceutical Sciences*, 25, 41–68. <https://doi.org/10.18433/jpps32488>

The authors have point out a typographical error appearing in the manuscript “Piecing Together Human Adult Comparative Pharmacokinetic Trials and Rodent Studies: What Happens to Drug Clearance in Obesity?” published in the *Journal of Pharmacy and Pharmaceutical Sciences* 15:41-68, 2022 (DOI: <https://doi.org/10.18433/jpps32488>) . The error affects the left axis labels of the two panels in Figure 1 (they were flipped in error). The left panel shows the volume of distribution ratios based on L, and the right hand panel shows the ratios of the volume of distribution ratios based on the L/kg. The corrected axes labels appear below.
