

## Final Program ELITA 2009 Winter Meeting

### Thursday 19 March 2009

14.00–16.30 ELITA Board Meeting

#### Welcome

17.00

##### Welcome Addresses

*Michael Olausson, Gothenburg and Patrizia Burra, Padova*

#### Small Bowel Transplantation Workshop

##### I. Management of short bowel syndrome

Chairs: Gustaf Herlenius – Michele Colledan

17:10

##### How to avoid liver failure in patients with short bowel syndrome under total parenteral nutrition

*Andre Van Gossum, Brussels*

17:30

##### Results of total parenteral nutrition in adults in Europe

*Bernard Messing, Paris*

17:50

##### From total parenteral nutrition to intestinal transplantation in children

*Girish Gupte, Birmingham*

##### II. Short bowel syndrome: multidisciplinary approach, need for- and results of intestinal transplantation

Chairs: Michael Olausson – Darius Mirza

18:10

##### Multidisciplinary approach in the treatment of patients with bowel failure

*Loris Pironi, Bologna*

18:30

##### Results of intestinal transplantation in the world and in Europe

*Jacques Pirenne, Leuven*

18:50

##### Indications and need for intestinal transplantation in Europe

*Antonio Pinna, Bologna*

19:45

Transport to dinner

### Friday 20 March 2009 08:00–09:30

#### Dilemmas in Liver Transplantation

##### I. Primary Sclerosing Cholangitis

Chairs: Andrew Burroughs – Maria Castedal

08:00

##### PSC – the disease

*James Neuberger, Birmingham*

08:20

##### Cholangiocellular carcinoma – to transplant or not

PRO  
CON

*Styrbjörn Friman, Gothenburg*

*Robert Porte, Groningen*

08:50

##### Proposal for a study in patients with Klatskin tumors

*Peter Neuhaus, Berlin*

09:10

##### Discussion

## Friday 20 March 2009 09:30–10:00

### Poster Presentation and Coffee

- 09:30 18 **Glycine ameliorates liver injury after partial hepatectomy in the rat**  
*Tamas Benko, Hideo Andreas Baba, Laszlo Kobori, Herbert de Groot, Ursula Rauen*
- 09:33 19 **Biliary indocyanine green excretion – an additional tool in the assessment of the graft function after orthotopic liver transplantation – preliminary results**  
*Falk Rauchfuß, Markus Paxian, Andreas Kortgen, Martin Siering, Erik Bärthel, Michael Heise, Michael Bauer, Utz Settmacher*
- 09:36 20 **Early prognostic significance of plasmatic ammonium, lactate and creatinine after liver transplantation (OLT) in children**  
*Roberta Marchesi, Claudio Barbanti, Sergio Vedovati, Michele Colledan, Daniela Codazzi*
- 09:39 21 **Liver transplantation in elderly recipients (> 65 yrs): increased incidence of post-operative mortality due to cardiac causes**  
*Fabrizio Panaro, Maxime Audet, Tullio Piardi, Murat Cag, Philippe Wolf*
- 09:42 22 **The longtime outcome of patients transplanted due to acute liver failure with hepatic HHV-6 infection**  
*Maiju Härmä, Irmeli Lautenschlager, Krister Höckerstedt*
- 09:45 23 **Preliminary results of contrast enhanced ultrasonography in the study of the hepatic vascularization after liver transplantation**  
*Umberto Maggi, Roberto Lauro, Gianni Paone, Ernesto Melada, Paolo Bertoli, Giorgio Rossi*
- 09:48 24 **Luminal preservation solution intestinal graft quality during cold storage of rat intestine**  
*Anne Margot Roskott, Henri Leuvenink, Guido Snoek, Gerard Dijkstra, Rutger Ploeg, Vincent Nieuwenhuijs*
- 09:51 25 **Twenty-Five years anniversary of liver transplantation in Norway**  
*Tim Scholz, Tom Hemming Karlsen, Øystein Hagen Bentdal, Bjarte Fosby, Pål Foyn Jørgensen, Pål-Dag Line, Erik Schruppf, Kirsten Muri Boberg, Kristian Bjoro, Aksel Foss*

## II. Colorectal Cancer With Liver Metastases

Chairs: Robert Porte – Magnus Rizell

- 10:00 **Historical data – results of Liver transplantation**  
*Gabriela Berlakovich, Vienna*
- 10:20 **Recent data from the Norwegian group**  
*Aksel Foss, Oslo*
- 10:40 **Proposal of an ELITA Study**  
*Pietro Majno, Geneva*
- 11:00 **Discussion**
- 11:30 *Lunch*
- 16:30 **Transportation to Dinner**  
**After Dinner Speaker**  
*Jan Lerut, Brussels*

## Saturday 21 March 2009

### ELTR data

- 07:45 **Update on ELTR**  
*Vincent Karam, Paris*

## Saturday 21 March 2009 08:00–10.15

### Abstract Presentations

Chairs: Paolo Muiesan – William Bennet

- 08:00 01 **Liver transplantation in HIV positive patients: a case control study**  
*Umberto Baccarani, Gian Luigi Adani, Marcello Tavio, Dario Lorenzin, Angela Londero, Francesco Bragantini, Chiara Comuzzi, Anna Rossetto, Vittorio Bresadola, Daniele Nicolini, Federico Pea, Claudio Avellini, Andrea Risaliti, Pierluigi Viale*
- 08:10 02 **Liver transplantation for primary sclerosing cholangitis in children: a single center experience**  
*Maria Clara Dezza, Vittorio Corno, Paola Stroppa, Aurelio Sonzogni, Manila Candusso, Fabio Tagliabue, Domenico Pinelli, Alessandro Lucianetti, Alessandro Aluffi, Michela Guizzetti, Marco Zambelli, Simona De Ponti, Marco Platto, Mohamed Al Hashash, Silvana Marin, Giuliano Torre, Michele Colledan*

08:20	03	<b>MELD-based organ allocation increases total costs of liver transplantation: a single-centre experience</b> <i>Peter Schemmer, Norbert Hillebrand, Tobias Schneider, Helge Bruns, Ulf Hinz, Jan Schmidt, Markus W Büchler</i>
08:30	04	<b>Reperfusion injury to steatotic rat livers after transplantation can be attenuated with a modified HTK solution</b> <i>Qinlong Liu, Arash Nickkolgh, Helge Bruns, Elvira Mohr, Christa Flechtenmacher, Markus Zorn, Markus W Büchler, Ursula Rauen, Peter Schemmer</i>
08:40	05	<b>The new LiMAx-test allows immediate decision making to retransplantation after liver transplantation (LTX) because of primary non function</b> <i>Martin Stockmann, Johan Lock, Eugen Schwabauer, Nicolay Videv, Peter Neuhaus</i>
08:50	06	<b>What is initial poor graft function after liver transplantation? – new functional definition from a prospective clinical trial</b> <i>Johan Lock, Nicolay Videv, Eugen Schwabauer, Peter Neuhaus, Martin Stockmann</i>
09:00	07	<b>Segmental liver transplantation in children using non-heart-beating donors</b> <i>Sara Gozzini, Thamara Perera, Khalid Sharif, David Mayer, Darius Mirza, Paolo Muiesan</i>
09:10	08*	<b>Intestinal microcirculation in clinical intestinal transplantation</b> <i>Mihai Oltean, Anders Åneman, Markus Gäbel, Michael Olausson, Gustaf Herlenius</i>
09:20	09	<b>Positive follow-up results on living liver donors</b> <i>Maria Castedal, Michael Olausson</i>
09:30	10	<b>Intra operative hepatic blood flow in pediatric split liver transplantation, correlation with the outcome</b> <i>Mohamed Alhashash, Marco Zambelli, Stefano Vezzoli, Alessandro Lucianetti, Alessandro Aluffi, Vittorio Corno, Michela Guizzetti, Domenico Pinelli, Fabio Tagliabue, Clara Dezza, Michele Colledan</i>
09:40	11	<b>Liver transplantation in isolated polycystic liver disease</b> <i>Loes van Keimpema, Frederik Nevens, René Adam, Robert Porte, Preben Kirkegaard, Herold Metselaar, Joost Drenth</i>
09:50	12	<b>Early prediction of acute or chronic allograft rejection in FK506 treated rat intestine transplant recipients</b> <i>Andreas Pascher, Birgit Sawitzki, Maren Kloepfel, Sven Kohler, Anja Reutzel-Selke, Peter Neuhaus, Johann Pratschke</i>
10:00		<b>Coffee</b>

## Saturday 21 March 2009 10:15–11:15

### My Worst Cases

10:15	13*	<b>Vacuum assisted closure for management of complicated abdominal wounds after paediatric liver transplantation</b> <i>Fabio Tagliabue, Maria Clara Dezza, Vittorio Corno, Alessandro Lucianetti, Domenico Pinelli, Alessandro Aluffi, Michela Guizzetti, Marco Zambelli, Simona De Ponti, Marco Platto, Mohammed Al Hashash, Silvana Marin, Michele Colledan</i>
10:27	14*	<b>Multimodal treatment of the recurrent HCC following liver transplantation</b> <i>Krzysztof Zieniewicz, Waldemar Patkowski, Włodzimierz Kupis, Krzysztof Dudek, Joanna Resmer, Janusz Wyzgal, Marek Krawczyk</i>
10:39	15	<b>Liver transplantation for biliary atresia and severe hepato-pulmonary syndrome in a 10 Yr old girl with a previous spleno-renal shunt</b> <i>Vittorio Corno, Daniela Codazzi, Adriana Tartufari, Giuliano Torre, Michele Colledan</i>
10:51	16	<b>Spontaneous liver rupture in Ehlers–Danlos syndrome type IV</b> <i>Paolo Muniesan</i>
11:03	15	<b>Liver transplantation with caval thrombectomy and cavoatrial suunt Budd–Chiari syndrome</b> <i>Paolo Muniesan</i>

### Summing Up And Adjourn

11:15 Michael Olausson, Gothenburg and Patrizia Burra, Padova

\*Yong Investigator Award Presentation.
